

Marvell Powers China's Tier 1 Mobile OEM K-Touch's First Smartphone For China Mobile

K-Touch's first TD-SCDMA smartphone, T660, is powered by Marvell's industry leading single-chip PXA920H

SANTA CLARA, Calif., May 17, 2012 /PRNewswire/ -- [Marvell](#) (Nasdaq: MRVL) today announced the entrance of China's Tier 1 mobile OEM, K-Touch, into the Time Division Synchronous Code Division Multiple Access (TD-SCDMA) smartphone market. The new K-Touch T660 is equipped with a large 4-inch screen that delivers superior performance at the 1,000 RMB price point. The T660, which features the Marvell® PXA920H single-chip communications processor, will be available on China Mobile, the country's largest carrier with more than 650 million subscribers.

"I'm very excited to see a tier-1 OEM, such as K-Touch, join the growing family of global OEMs providing TD-SCDMA solutions in China. I believe this represents the transition of feature phones to smartphones for the mass market," said Weili Dai, Co-founder of Marvell. "The rapid growth of partners across the entire TD-SCDMA ecosystem provides a strong foundation for continued growth in the largest consumer market for years to come. We are proud of our work with K-Touch and are excited to continue our collaboration on next-generation smartphones for the China market."

"Marvell was the natural choice for K-Touch when we decided to enter the TD smartphone market, as it has demonstrated unparalleled leadership in the industry," said Xiuli Rong, Chairwoman of K-Touch. "The breadth of Marvell technology portfolio provides all the necessary building blocks for us to transition from a leading feature phone OEM to providing low-cost smartphones for the mass market."

The K-Touch T660, the first K-Touch device available to China Mobile subscribers, features Marvell's 1GHz PXA920H communication processor, a highly integrated 3G platform with TD-SCDMA and GSM/EDGE support, designed for multimedia-centric mobile devices.
