"I am incredibly honored and humbled to receive the inaugural Indonesian Diaspora Lifetime Achievement Award for Global Pioneering and Innovation. I am accepting this award on behalf of the millions of Indonesians who left the country while keeping the Indonesian pride and spirits alive," said Dr. Sehat Sutardja. "I am deeply thankful to my wife, Weili, and my family for their love and support. As a proud son of Indonesia, I am committed to helping Indonesia leapfrog to the knowledge based economy by adapting the most advanced technology that we have developed to make the world a better place."

"Dr. Sutardja has not only been a pioneering force in the technology industry, but also an advocate of leveraging innovation to advance Indonesia's role in the global economy and provide new opportunities for its citizens and the Diaspora," said Dr. Dino Patti Djalal, the Indonesian Ambassador to the United States. "Dr. Sutardja is widely admired and respected in Indonesia for his remarkable achievements, as well as for his humility and idealism. He embodies the spirit of entrepreneurship and excellence that Indonesians yearn for in the new global landscape of the 21st century. Dr. Sutardja was the natural selection for the inaugural Indonesian Diaspora Lifetime Achievement Award for Global Pioneering and Innovation; his accomplishments exemplify what can be achieved with a relentless, innovative drive and he is a key advisor around technology's pivotal role in the next phase of Indonesia's development."

Dr. Sutardja, born and raised in Jakarta, is widely regarded as one of the pioneers of the modern semiconductor age. With more than 260 patents in his name, Sutardja's breakthrough designs and guiding vision have revolutionized the semiconductor industry and enabled landmark devices for markets ranging from data storage to mobile. He has also leveraged his technology acumen and relationships with world leaders to expand access to technology for developing nations.

Dr. Sutardja and his wife, Weili Dai, are very successful business partners who have co-founded Marvell Technology Group Ltd. together. Today, Marvell is one of the top five fabless semiconductor companies in the world. They're also very proud parents of two sons who are Electrical Engineering graduate students at UC Berkeley; Christopher and Nicholas are currently Ph.D candidates.
