

## Marvell Named A Derwent Top 100 Global Innovator For The Seventh Consecutive Year

SANTA CLARA, Calif., Jan. 28, 2019 [/PRNewswire/](#) -- Marvell® (NASDAQ: MRVL), a leader in infrastructure semiconductor solutions, was named a [Derwent Top 100 Global Innovator](#) for the seventh year in a row. This prestigious award by Clarivate Analytics identifies and celebrates the world's most innovative organizations – companies that successfully develop patented inventions with strong potential for commercialization.

Marvell, with more than 10,000 patents, was recognized for its deep culture of innovation and robust intellectual property achievements. This honor reflects Marvell's mission to develop industry-leading technologies to process, move, store, and secure the world's data faster and more reliably. Placement on the list has become a standard measure for innovation across the world and is recognized as a significant achievement for those who are named.

"We are honored to be recognized as a Derwent Top 100 Global Innovator for the seventh year in a row," said Kelvin Vivian, Director, Assistant General Counsel, IP Development, Marvell Semiconductor, Inc. "At Marvell, we continue to stay committed to providing the world's best infrastructure solutions that enable our customers to drive innovations in enterprise, data center, carrier, automotive and consumer applications."

Dan Videtto, President, Derwent at Clarivate Analytics, noted, "Marvell's seven consecutive wins as a Top 100 Global Innovator show that Marvell is consistently meeting its customers' and partners' needs through a sound intellectual property strategy. This is especially important as their customers face design challenges caused by the continuous influx of data and stringent network demands."

The Derwent Top 100 Global Innovators methodology is based on four principle criteria: overall patent volume, patent application-to-grant success rate, global reach of the portfolio and patent influence as evidenced by citations. The peer-reviewed methodology was executed using Clarivate solutions including Derwent World Patents Index (DWPI) and Derwent Patent Citations Index (DPCI). The index provides editorially enhanced, authoritative and accurate patent data, and is trusted by more than 40 patent offices worldwide.

The Derwent Top 100 Global Innovators of this year come from three continents and 12 countries/regions.
