Marvell to Acquire Aquantia - Accelerating**Ethernet Technology Leadership**

- Positions Marvell to Further Capitalize on Automotive In-Vehicle Networking
- Strengthens Multi-Gig Ethernet Portfolio for Enterprise Infrastructure, Data Center and Access
- Highly Complementary Transaction; Immediately Accretive to Marvell's Non-GAAP EPS

SANTA CLARA, Calif. and SAN JOSE, Calif., May 6, 2019 /PRNewswire/: Marvell Technology Group Ltd. (NASDAQ: MRVL), a leader in infrastructure semiconductor solutions, and Aquantia, Corp. (NYSE: AQ), a leader in Multi-Gig Ethernet connectivity, today announced a definitive agreement, approved by the boards of directors of both companies, under which Marvell will acquire all outstanding shares of Aquantia common stock in exchange for consideration of \$13.25 per share in cash.

The acquisition of Aquantia complements Marvell's portfolio of copper and optical physical layer product offerings and extends its position in the Multi-Gig 2.5G/5G/10G Ethernet segments. In particular, Aquantia's innovative Multi-gig automotive PHYs, coupled with Marvell's industry-leading gigabit PHY and secure switch products, creates the broadest and most advanced range of high-speed in-car networking solutions in the world. This unique combination accelerates Marvell's vision for the future of automotive networking with speeds necessary to enable level 4 and 5 autonomous driving.

As the automotive industry increasingly adopts Ethernet in-vehicle networks for mainstream models, the number of related ports is expected to grow dramatically at a 62% annualized growth trajectory, from 53 million in 2018 to 367 million by 2022¹.

"Our acquisition of Aquantia will fuel Marvell's leadership in the transformation of the in-car network to high-speed Ethernet over the next decade," said Matt Murphy, president and CEO of Marvell. "At the same time, Aquantia extends our reach in the rapidly emerging Multi-Gig segment of network infrastructure and creates a leading end-to-end Ethernet connectivity portfolio."

"Marvell and Aquantia share a vision where the network – whether in an autonomous vehicle, an enterprise application or in cloud infrastructure – can seamlessly power the data economy," said Faraj Aalaei, chairman and CEO of Aquantia. "This is a fantastic opportunity as our customers will benefit from Marvell's global scale and expanding footprint in Multi-Gig network applications."

The transaction is expected to be immediately accretive to Marvell's non-GAAP earnings per share and generate significant annual run-rate synergies of \$40 million to be realized within 12 months after the transaction closes.
